

IN JAIL FACING THREE BAD CHARGES

Harvey Gibson, Said To Be Oil Stock Salesman From Clinton County In Trouble

With three charges against him here, preferred by Manager C. C. Rhodus, of the Hotel Glyndon, a young man by the name of Wm. H. Gibson, who is said to go by the name of Harvey Gibson and whose home is said to be in Clinton county, is in the Madison county jail. Since being incarcerated here, three other warrants have been sent here to Sheriff Whitlock by the authorities at Lexington.

The three charges against Gibson here are seeking to defraud a hotel keeper of his board bill, obtaining money by false pretenses, and giving a "cold check." Gibson's trial is set for next Friday. Through his attorney, Eugene Moynahan, of this city, he has three times obtained a continuance of the hearing, which will in the nature of things be but an examining trial.

Gibson came here about October 15th and registered at the Hotel Glyndon. He was understood to be in the oil stock business. In the complaints lodged against Gibson, Manager Rhodus alleges that he remained until November 5th and accumulated a bill for lodging, laundry, etc., amounting to \$8.54, which is still due and unpaid. Mr. Rhodus alleges also that Gibson gave him a draft for \$20 on Dr. R. E. Gibson, of Albany, Clinton county, upon which payment was refused, and then gave Mr. Rhodus a check for \$5 on the Fayette National Bank at Lexington, which was returned marked "No funds." The charges against him at Lexington, warrants for which have been sent to officers here, are for giving "cold checks" and obtaining money under false pretenses.

Gibson is a young man, apparently about 25 or 30 years of age and of good appearance.

OPERATORS KICK ON WILSON'S PROPOSALS

(By Associated Press) Washington, Nov. 22.—The bituminous coal operators in the central competitive field declared today that Secretary Wilson's proposal to the joint wage scale committee yesterday served only to widen the breach between the operators and the miners. It is understood Wilson proposed an increase of 27 12-100 cents a ton for coal diggers and \$1.58 per day for day laborers. Some operators said this is wholly unsatisfactory to them.

After the scale committee adjourned, the operators would make no formal statement but some said privately they would go into session late today with the miners' representatives to definite policy. The miners would not discuss Wilson's proposal.

REPORTS OF LOCAL FOX HOUND SALES

While at the big National Fox Hunters' meet at Crab Orchard last week, Charley Lanter, a well known Madison county fox hunter, sold a fine young hound to Woods Walker of Paint Lick. The hound was an 18-months-old sorrel bitch, that Mr. Lanter secured from Miley Long. She was a beauty and he got \$100 for her. At the same meet J. L. Kanatkar sold his crack three-year-old dog "Broach" to J. H. Wilder, of Vincennes, Ala., who was elected president of the Association. It is understood that Mr. Kanatkar got \$200 for his hound. Mr. Wilder also bought a Derby dog from Alex Parrish of this county, at a fancy price.

D'ANNUNZIO CAUSES CRISIS ON ADRIATIC

His Followers Want To Make Him President Of Italy—Jugo-Slavs Concentrating

(By Associated Press) London, Nov. 22.—The situation on the Adriatic as a result of Gabriele D'Annunzio's campaign has reached a crisis. Private advices leave no doubt that he is determined to annex Dalmatia and attack Montenegro. The Jugo-Slavs are reported to have concentrated troops with a certainty that further aggression will precipitate hostilities.

Another report says that a Republican undercurrent, directed against the Italian monarchy, exists among D'Annunzio's forces. D'Annunzio it appears, has been stirred to further efforts by the fact the Italian elections were unfavorable to his cause. A certain element among his adherents is credited with a desire to make him president of Italy.

REDS HAVE MONEY FOR REVOLUTION IN U. S.

(By Associated Press) New York, Nov. 22.—Search for the holders of a \$68,000 fund reported to have been raised here to provide radicals with arms and ammunition "for a coming revolution," occupied the attention of federal agents and the police and anarchist squad today. Boston authorities informed New York officials that a former Russian newspaper editor told of the fund in a Boston address, urging radicals "to stop talking and begin acting."

THIS MEANS MORE MONEY FOR EASTERN

Constructing the statute providing the various taxes collected and especially the inheritance tax law the Appellate Court at Frankfort Friday decided that the public schools of Kentucky will share in the inheritance tax collected by the state, just as the other funds are provided by the law. The immediate result of the decision is that \$147,282.50 held in the treasury pending the action of the Court will be transferred to the school fund, as this amount has been collected in the inheritance fund to the credit of the schools since the enactment of the statute in 1918. Eastern Kentucky State Normal shares in the tax as do other State educational institutions.

ROGERS WILL PROBATED

H. C. JAMES BUYS M'CREARY BUILDING

Secures Prominent Business House As Investment—Many More Town Sales

H. C. James, well known local real estate dealer, has just announced that he has purchased the building on Second street formerly owned by the late Gov. Jas. B. McCreary, from Mr. T. H. Collins, who bought it from Robert McCreary. The price is understood to have been around \$5,000. The lower floor is occupied by the Pantagraph, and Attorney John Noland has offices on the second floor. Mr. James states that he bought it as an investment. It is one of the best located and most desirable business buildings in town.

Town lots continue to change hands with remarkable frequency in Richmond, as well as in the other towns of Madison county. Berea College has recently purchased a number of lots in that city and several more deeds there have just been filed.

MEXICANS STILL HOLD U. S. CONSUL IN PEN

(By Associated Press) Washington, Nov. 22.—Although the note sent by the State Department to the Mexican government Wednesday demanding immediate release of American Consul Agent Jenkins at Puebla, was delivered to the Mexican Foreign Office the same evening the Mexico City press yesterday said Jenkins is still in the penitentiary. It was announced today at the State Department.

No reply to the American note has been received and no indication when one will be made. Officials reiterated today that the Department had no information tending to sustain the charge that Jenkins was in collusion with the bandits who kidnapped him, and held him for \$150,000 ransom.

PAINT-LICK BEATS LANCASTER 6 TO 0

In a snappy game of football Friday afternoon, Paint Lick High School walked over the crack Lancaster High School team to the tune of 6 to 0. The score should have been much higher as the Paint Lick boys out-classed Lancaster at every stage of the game. Prewitt made a touch down from an intercepted pass but was called back 20 yards and the ball put in play. Time again Paint Lick was penalized when they were just about to cross the goal. Lancaster ran in two cracks rigners while Paint Lick was handicapped by the absence of Wes and Gibson, their crack players. Paint Lick's center only weighed 115 pounds and is 15 years old. Capt. Oli Patrick and Jno. Kublman starred for Paint Lick while every other man played to top notch. Come again Lancaster.

RED CROSS LEADER COMING TO BERA

Dr. Lipscomb To Attend County Life Conference And Deliver Address Next Week

Dr. William Lipscomb, director of the Bureau of First Aid of the Department of Military Relief for the Lake Division, American Red Cross will be in Bera Tuesday and Wednesday, Nov. 25 and 26. While in the city he will speak at the 'Country Life Conference of the Agricultural and Normal Schools of Kentucky and southern Indiana.

He will also confer with officials of Bera Chapter of the Red Cross on the subject of starting First Aid instruction classes in groups of all kinds—industrial, factory, store, school, club. "First Aid is merely common sense based on a little added knowledge," declares Dr. Lipscomb who has just been released from army service. It is his belief that thousands of lives are lost through ignorance of First Aid treatment on the part of persons who first come in contact with the injured.

While in Bera, Dr. Lipscomb will stop at Boone Tavern hotel.

BEREA TO ENTERTAIN BIG CONFERENCE

National Conference On Rural Education To Be Held At Bera College, Nov. 25

For the past five years the Department of the Interior, through the Bureau of Education, has been waging a nation-wide campaign for better rural schools and the improvement of country life. Among the agencies employed in this work has been a series of conferences throughout the country. In response to invitations from President Frost of Bera College and Hon. V. O. Gilbert, State Superintendent of Public Instruction, Frankfort, the Sixteenth Conference has been called to meet at Bera, November 25 to 28, both inclusive, 1919. Several Governors, County Superintendents of schools, Presidents of State Normal schools, college and universities and many prominent club women, business and professional men, administrative school officers and progressive farmers have been invited and many of them will be present and take part on the program.

The central thought of the conference will be what our rural schools must be and do to meet after-war conditions.

Dr. W. C. Bagley, of Teachers College, declared before the Rural Section of the Department of Superintendence at Chicago, 1919, that the greatest problem in American education today is the rural school problem. He said it is more than that. It is the fundamental problem in American life.

Dr. L. D. Collman, Dean Teachers College, University of Minnesota, says that the rural situation in the United States is a tragedy.

President Coates, State Normal School, Richmond, Ky., says the trouble with the rural school problem is that the average farmer and the average rural teacher look upon school as a little house on a little ground where a little teacher at a little salary for a little while teaches little children little things. And Prof. P. G. Holden adds that we have thus belittled the biggest job in America.

Long before the world war, long before President Wilson began to plead for an increased production of food products as the surest and most effective way to reduce the high cost of living the food supply was not keeping pace with the demand. The census shows that from 1900 to 1910 the agricultural products in the United States increased ten per cent as compared with the preceding decade, while the population increased twenty-one per cent.

In a discussion of this condition, as long ago as 1913, President J. D. Eggleston, of the Virginia Polytechnic Institute declared that these facts brought to light by the census make it plain that it is the menace of hunger that is turning the nation to the rural school as the only instrument capable of averting widespread disaster. Confronted by this danger, the nation is turning to the rural school because, owing to the changes wrought by the last century in our economic and social life, and more especially in the economic and social conditions surrounding agricultural production, the rural school more than any other one instrument today controls the food-supply of the nation.

If the disaster and danger relative to the food supply of the nation were as imminent as President Eggleston thought it was in the light of facts brought out by the census of 1910, the situation is certainly more serious and threatening at the present time because of the direful effects of the world war. If the rural school is to play the part in the solution of these problems that President Eggleston says it must the Central thought of the Bera Conference becomes a paramount issue for the nation.

A detailed program of the Conference will be ready for distribution soon.

For information regarding hotel accommodations and for accommodations at the college dormitories, write Dean C. N. McAllister, Bera, Ky., at once, stating how many in the party.

FOX HUNTERS ALL JOINED RED CROSS

Mrs. Kanatkar Brings Renewed Members From All At Crab Orchard Meet

The Red Cross campaign for Third Roll Call for the county has ended, but any one wishing to renew his membership is asked to call at the Citizen's National Bank, leave his name and dollar and receive his button. Thanks to McCreary Simmons, Chairman of the Drive, and his assistants, who worked so valiantly on November court day, four hundred and thirty names were enrolled, most of them on that day.

Mrs. Julian Tyng, Miss Dorothy Perry and Logan Burnam led in the number of memberships gained.

In the county precincts, Miss Alice Whitlock and Miss Mattie Hamilton were ahead.

Mrs. Beya, a red cross nurse who spent four years in foreign service, added greatly to the interest of the campaign, speaking twice in the court house on court day.

A very pleasing incident which occurred at the National Fox Hunt at Crab Orchard, may be mentioned. One of the hunters, Mr. J. K. Herring, of Clarksville, Mississippi, noticed that the table spread for a banquet was in the shape of a cross, and suggested that those present should "say grace" by renewing allegiance to the Red Cross, the greatest mother in the world. No sooner said than done, and every man renewed his membership and the money was turned over to Mrs. J. L. Kanatkar, who paid it to the treasurer of the Madison County Chapter, which here expresses appreciation of the timely thought.

THREW AMMONIA INTO BOY'S EYES

Is Charge Against A 14-Year-Old School Boy Made By Father Of The Victim

A warrant has been sworn out in the Madison Juvenile Court by G. C. Kearns, against Wallace Smith, a 14-year-old boy, charging him with throwing ammonia into the eyes of a little son of Kearns while the child was on his way from school, causing injuries which may result in the loss of his eyesight. It is also claimed that the Smith boy was recently expelled from the city school. He will have his trial next week.

COATES SPEAKS AT BALLARD'S LUNCH

Eastern Normal President Takes Prominent Part In Conference For Better Schools

President T. J. Coates, of Eastern Kentucky State Normal, is back from Louisville, where he attended a luncheon given by Lieut. Gov.-elect Thruston Ballard, in honor of George Colvin, of Springfield, the new State Superintendent of Public Instruction. The dominant note of the conference was betterment of the school system of the state, with special thought of the needs of rural schools.

Several score educators of the state met Mr. Colvin. Speakers urged in particular better textbooks, higher pay for teachers, revision of State school laws to help rural schools more actively to impress the people with the importance of school problems and their solution, teaching of 100 per cent, Americanization, keeping school superintendents out of politics, standardization of buildings, increasing of school revenues, careful State survey and separation of schools and politics.

Mr. Colvin said that he would soon announce a program designed to bring about reconstruction of education in the State and expressed his appreciation of the interests shown by the speakers who were: Mrs. Lafon Riker, president of the Kentucky Federation of Woman's Clubs; Wm. B. Belknap, Miss Fanny Sumrall, of the Jefferson county School Association, ad Welfare worker in the Ballard Mill; President T. J. Coates; Prof. Charles D. Lewis, Bera; Harry Giamoli, editor of the Lexington Leader; James Speed, of the Southern Agriculturalist; Dr. R. L. McCready, dean of Christ church cathedral; Churchill Humphrey, former member of the Board of Education; Alex G. Barrett, of the Board of Education; James A. Payne, Hardin county School Superintendent; Prof. H. H. Cherry, of Bowling Green; John C. Pirtle, of Elizabethtown; Thomas F. Smith, president of the Board of Trade; J. H. Risley, of Owensboro.

AUTO HEARSE GOT STUCK IN MUD ROAD

Mr. Tom Kindred, of the Panola section, was in town Saturday and reported to Judge W. K. Price, that the road known as the Red Lick road, in his section, is almost impassable, and needs working badly. It runs from Drowning Creek near Killis' barn to the cross road near I. J. Owens. Judge Price appointed Jesse Wilson, a well known merchant of Panola, as overseer of the road, to have it put in shape. Mr. Kindred said that an auto hearse got stuck in the road a short time ago, and it took all day long for it to get hauled out.

Corey To Speak At Christian Church

In the absence of Mr. Carpenter Rev. S. J. Corey, of Cincinnati, will speak at the First Christian church Sunday morning. Mr. Corey is one of the most popular leaders and speakers in the Christian church and will be heard by a large audience on Sunday morning. He is to be here for just the one address leaving to speak at Winchester Sunday afternoon. The evening service at the Christian church will be adjourned.

Somerset Ali Puffed Up

Somerset is feeling pretty good these days over the honors, political, football, and otherwise which are being heaped upon her citizens. The Somerset Journal is all puffed up over the prominence of old Pulaski on the map just at present, and gloats over her honors, as well it may. It says:

Is Somerset on the Map? Well we guess yes. What town in all the United States can beat this record? Speak up. The next Governor of Kentucky is a Pulaski county product. The next Railroad Commissioner from this district—J. Sherman Cooper—hails from the best town in the state. "Red" Roberts, "Bo" McMillin and "Red" Weaver, of Centre College, foot ball wonders and All-American material are graduates of the Somerset high school. Leonard Bahan, Captain of Notre Dame is a Somerset boy and a graduate of the high school. Somerset is furnishing the Circuit Judge and Commonwealth Attorney for the 28th judicial district and for good measure we have the Representative from the Pulaski-McCreary District. Are we cheery? Well we have a right to be.

More "Captain Kidd" nonsense! It develops that a preacher, with two helpers, dug up a whole sixty-acre farm in New Jersey in quest of pirate gold. He didn't find any gold.

And yet there was buried treasure on that farm. There is on every farm. All that is necessary to get it is to do the digging systematically, in proper season, accompanying the process by putting seed corn into the ground, and then reaping the crop when it is ready. The delving pastor, if he had practised this method assiduously for the same period he spent in futile spade-work, might have had by this time a bigger chest of gold than any pirate ever buried on the Jersey coast.

As matter of fact the gold busi-

ness, legitimate and illegitimate, has been tremendously over-played. All the gold ever ferried from the New World across the Spanish Main was worth less than the fish swimming in that same Main, and worth a great deal less than the useful native products that might have been carried home to the Spanish people from Mexico and Peru. All the gold ever dug in California is trivial compared with the wealth produced there when men turned from placer-mining to plowing. Mountain streams run into irrigation ditches have made more money than they ever made when their sole use was washing yellow dust out of sand.

Every man who owns a farm owns a gold mine. Every man who owns his own home has buried treasure in his back yard.

CHURCH ADVERTISING

Is Systematically Inaugurated By Presbyterian Church

The Department of Publicity of the Presbyterian church in the U. S. A. is the first in the country to undertake systematically to educate churches up to regular newspaper advertising. This department whose headquarters are 156 Fifth Avenue, New York City, has just opened a western office at 17 North State street, Chicago, with Herbert H. Smith, in charge. The special work of this office will be the development of this plan of systematic newspaper advertising by the Presbyterian churches.

Mr. Smith was formerly managing editor of The Continent of Chicago and prior to that was engaged in daily newspaper work. He has specialized in church advertising. He is the author of a book on the subject and has given lectures on it in McCormick Theological Seminary.

Already Presbyterian churches are doing a great deal of newspaper advertising and are responding rapidly to the work of the Presbyterian Department of Publicity along this line. So great has been this response that it has become necessary to open this western office.

MIRIAM COOPER.
DIRECTION WM. FOX.

A newspaper had the following notice of the showing of "Evangeline" which comes to Richmond soon:

A motion picture of great educational as well as entertainment value has come to town. This is the Win Fox version of the poet Longfellow's immortal "Evangeline," which opens yesterday at the local theatre. It is a wonderful effective presentation.

Through it all runs with vivid force the love epic of Evangeline, played by Marian Cooper, and Gabriel, played by Albert Roscoe. A large audience sat spellbound yesterday as our beautiful scene after another unfolded the dramatic story. The producer has done well in adhering faithfully to Longfellow's poem, so the net result is a superb picture in one that may be said to stand in a class alone.

Too much credit cannot be given to Miss Cooper for her interpretation of the role of the heroine.

Here, There, Everywhere

Gilbert Lee Stone, son of M. Jefferson Stone, of this city, recently moved to Nicholasville, has been discharged from the service and returned home last week. Mr. Stone was in three of the fiercest battles, at the front and was gassed a number of times. He relates many interesting stories of his experience and his family and friends are glad to have him back.

Mr. O. T. Soper, son of John Soper, from his farm near Nicholasville, when he was a young boy, fell and fell, getting him Mr. Soper's leg beneath the weight of the horse, fully sprained and breaking it. Friends here where Mr. Soper formerly made his home, he is sorry to hear of his accident.

Elizabeth, the little daughter of Mrs. A. M. Davidson, admitted to operation for tonsillitis at the Patti Clay Infirmary early Wednesday morning. Friends will be glad to know she is doing nicely.

Mrs. C. B. Howard has returned to her home in Lexington, after a visit to relatives here.

George Myers is now connected with the Madison Electric Company, and lined up with the popular Fred Davis in they and a mighty strong team.

Mrs. Wm. Irvine continues quite ill at her home on Lancaster avenue.

R. S. Dabney, a student at Eastern Kentucky State Normal, has been ill with a severe cold.

Went School Tax Made \$1

A number of county school superintendents and teachers met at Frankfort last week to discuss movement to obtain more money for school equipment and maintenance. They urged that the maximum tax rate be raised to one dollar on the \$100 and that the graded school systems of fourth class cities be constituted separate districts.

Railroad Conductors Changed

Several changes have been made among the train crews on the L. & N. in this section recently.

Popular Bob Harris is now in charge of the Beattyville and McRoberts train, and is greatly missed on the old "L. & A." Capt. Robert Linville, who has been in charge of one of the K. C. trains around by Rowland to Louisville, has been transferred to Covington, where he will have his headquarters. He will soon move his family there, much to the regret of their many friends.

RULES TOBACCO MEN MAY EMPLOY AGENT

Tobacco growers and dealers are all interested in a decision handed down by Commissioner of Internal Revenue Roper at Washington that tobacco growers of Kentucky may pool their natural product and sell it to consumers through an agent, provided this agent is paid a regular salary and does not receive any commission, without being subject to the internal revenue tax.

The decision handed down by Commissioner Roper in response to a request from Congressman Kincheloe follows:

"You are advised that under the existing law the farmer or growers of tobacco has the right to sell tobacco which he has grown to any person and in any quantity which may be desired, provided conditions of such leaf tobacco has not been changed in any manner from that in which it was cured on the farm.

"No tax accrues on such sales and no liability is incurred by the farmer provided the tobacco is not stemmed, twisted, plaited, rolled, sweetened or otherwise manipulated before its sale to consumers.

"A farmer is not prohibited from employing an agent to sell his tobacco for him, and a group of farmers may pool their tobacco and likewise employ an agent to sell their tobacco

CONSTIPATION And Sour Stomach Caused This Lady Much Suffering. Black- Draught Relieved.

Meadowville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to wear up my digestion. They would grip me and afterwards it seemed I was more constipated than before."

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it.

for them without legal objection.

"Employment of an agent by a farmer or a group of farmers, however, is restricted, since the agent may not make sales on commission without himself being regarded as a

dealer in leaf tobacco and subject to liability of a dealer in leaf tobacco.

"An agent, whether employed by one or more principals, must first, conduct all sales in the name of his principal or principals; second, transfer to his principal or principals proceeds of such sales without deduction of any kind; third, keep such records of receipts and sales as will enable him to furnish information showing with respect to receipts, date thereof, quantity received and, in regard to sales, date thereof, quantity sold, name and address of each purchaser and selling price.

"An agent of a grower or of growers of tobacco may sell by mail, and checks and money orders in payment of the purchase price may be made payable to his order."

21 Years For Colored Killing

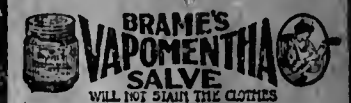

In the circuit court at Nicholasville, a verdict of 21 years in the penitentiary was rendered by the jury last week against Nathaniel Tull, colored, for the shooting and killing of George Bowman in Wilmore. The killing occurred last March at the colored church there, following an entertainment given in the church in which Ford Bowman, a brother, was also wounded.

Mr. and Mrs. Boyd Wells and Miss Lola Wells spent the week-end with relatives at Panela.

PREVENT PNEUMONIA

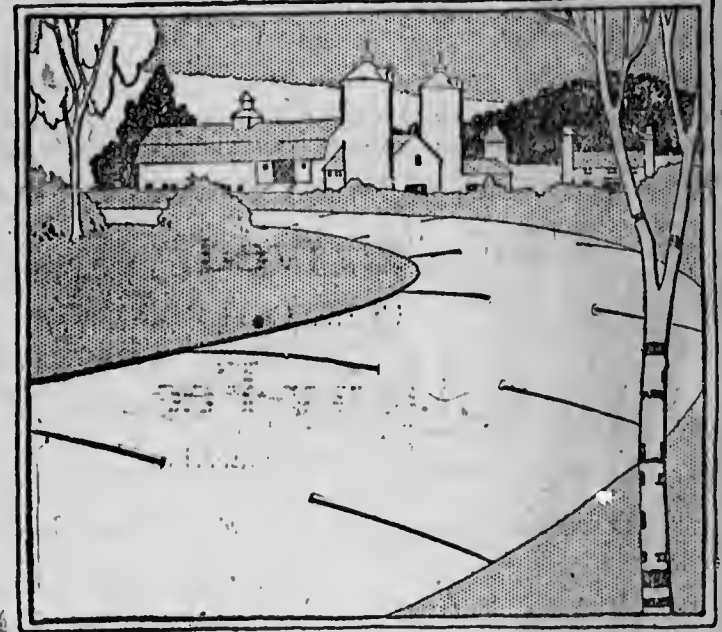

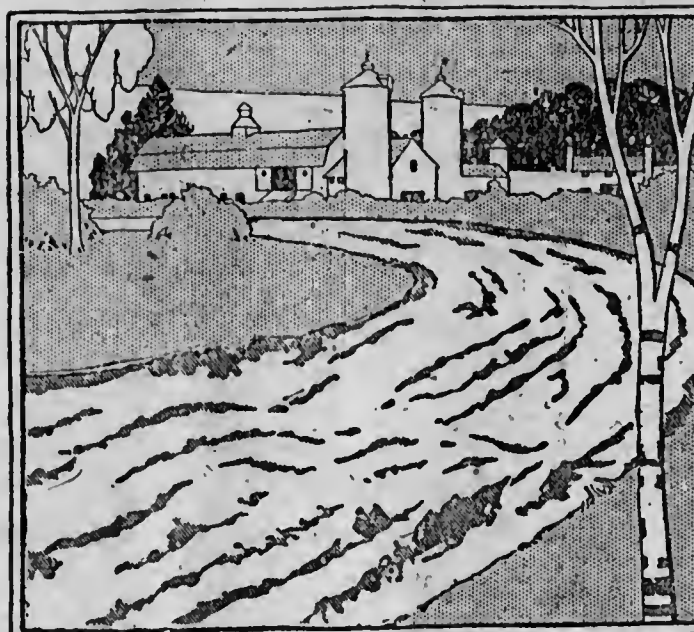

Neglect of a simple cold is often the direct cause of pneumonia. Children do not like to take nauseating medicine but do like the soothing effect of the external remedy,

Brames' Vapomenthia Salve is applied by rubbing this delightful salve into the chest and under the arms. The result is almost instant relief from cough and colds. It is not unusual for mild cases of pneumonia to be cured by the use of a few applications. Recommended by doctors for the youngest child as well as for grown-ups.

The Road—In New Overland 4 on Three-Point Cantilever Springs

YOU expect a bad road to ride as it looks. It did, until the introduction of the Overland 4 Springbase.

Overland 4 does not change the road, but it does change the manner in which you can ride on it. It gives you comfort instead of discomfort. It gives you a smooth, sailing sensation instead of bouncing and swaying.

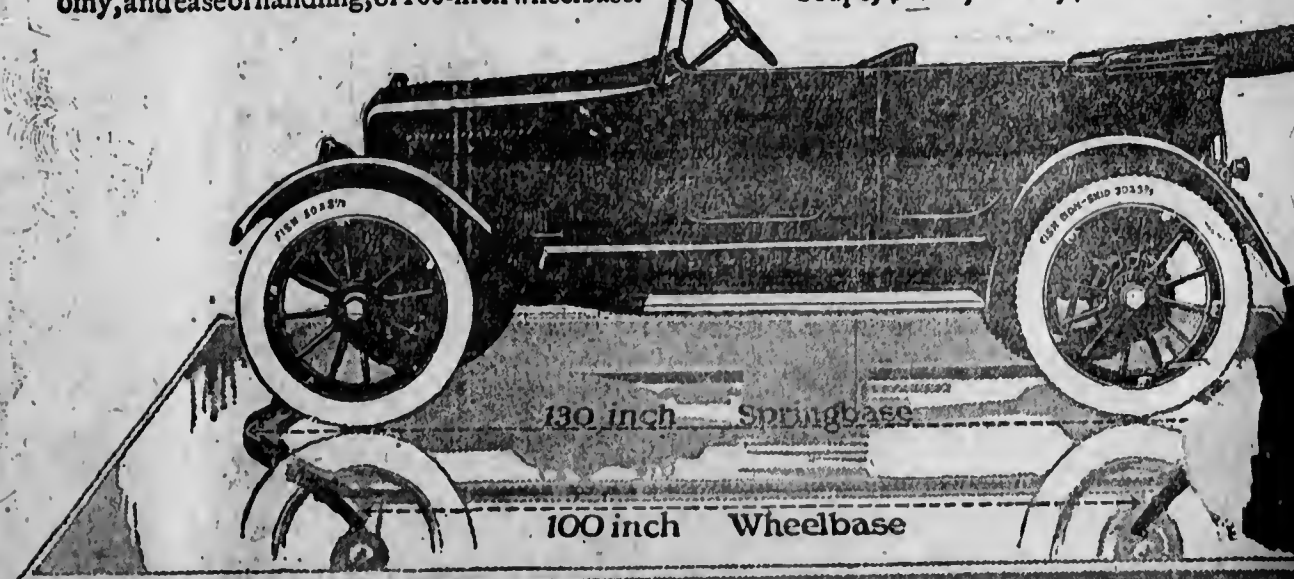

The Diagonal attachment of Three-Point Cantilever Springs at the ends of a 130-inch Springbase gives long wheelbase road steadiness. Yet Overland 4 retains all the advantages—lightness, economy, and ease of handling, of 100-inch wheelbase.

This means an altogether new standard of riding comfort, a noteworthy reduction in the wear and tear which lessens the efficiency of a car. The new springs give longer life to every part and thus minimize upkeep and replacement costs.

Tires wear longer because cushioned against hammering blows. Light weight means marked economy in gas, oil and running expense.

Overland 4's equipment is complete from Auto-Lite Starting and Lighting to Demountable Rims.

Come in and see this remarkable car. Ask for booklet. Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375. Prices f. o. b. Toledo.

KEEP YOUR EYES OPEN FOR THE

One of the funniest scenes in one of the greatest successes ever produced. Selwyn Co.'s comedy, "The Naughty Wife" at the Opera House Wednesday evening, November 26.

HEARD ABOUT TOWN

Two old women, Nannie and Kate lived in a large brick on the principal "strate". One was small, the other tall. But neither was lean at all. These two old women could only make one. On account of the tricks fate had done, One's eyes were affected, she could hardly see. The other one, Kate, was weak in the knee, So Kate did the things that required the eyes, Such as doing the cooking—bread and pies, Nannie did the cleaning, both within and out. As she was well and very stout. Nannie invested her money into government bills. But poor Kate's all went for doctors' pills. But you'd be surprised what joy they found. In the news and gossip of their small town, If some one was married they'd always say. They will live to rue their wedding day, If some one died, to the funeral they went. It seemed to bring them the greatest content.

For they felt life's ills would soon all pass. And they'd have good eyes and strong limbs at last.—Contributed.

Commissioners Sale

B. P. Hoskins, Jr., Plaintiff vs. Southern National Bank etc., Defendant.

Pursuant to judgment and order of sale entered in the above style action, by the Madison Circuit Court at its October term, 1919, the undersigned Commissioner will expose to public sale to the highest and best bidder at the hour of 10:30 o'clock on

Friday, November 28th, 1919

on the premises, the following described property:

A tract of parcel of land in Madison county, Ky., on the waters of Jacks Creek and described as follows: Bounded on the north by the lands of T. H. Collins, on the east by the lands of John Crawford, on the south by the land of Pryse Gumum and on the west by the lands of George Perkins and Jacks Creek, and containing 116.48 acres.

The above described land is in a high state of cultivation, splendid sand stone land, raises fine

hemp or tobacco, and on said premises there is a good dwelling, and two splendid tobacco barns that will house twenty acres of tobacco.

There is very little of such land as this on the market in this county. And the judgment in this case is here referred to for a more particular description, of this land and made part thereof.

Terms: Said land will be sold on a credit of nine, sixteen and twenty months, the purchaser being required to execute sale bonds payable to the Commissioner with approved security and bearing 6 per cent interest from day of sale until paid, with a lien retained on the land until said bonds and interest are fully paid.

EXPERT PRESSMAN FINISHES WORK HERE

After spending a week installing the Daily Register's new Duplex perfecting press, Mr. Paul Drake, factory erector, left for Ottawa, Kansas Thursday, where he will superintend alterations on a press of similar type. From there he expects to go to Oklahoma to erect a new press. His duties carry him to all parts of the country, wherever newspapers are installing the latest style of printing press. He came to Richmond from way out in Kansas and before that was in Louisville, Winchester, Fredricksburg, Va., and Laramie, Wyoming.

Mr. Drake is one of the finest machinists ever in Richmond, and

knows his business from A to Z. The company making these presses is to be congratulated upon having such an efficient man in its employ. He made many friends while here.

Mr. Drake said that the Daily Register's new office building is one of the finest country printing plants he has seen anywhere in his travels over the country and a credit to a city far larger in size than Richmond. In fact he seemed surprised that a city of this size had a newspaper plant like that which the Daily Register is now enjoying.

Mr. Drake was also high in compliment of the electric service which is being furnished at the plant by the Kentucky Utilities Company. He said that usually he has to wait from a day or two up to a week for electric service, once he has a press erected, but he was very agreeably surprised by the very prompt and efficient co-operation and service that the company gave him here. He was high in praise of local Manager George F. Fawkes, and declared that the people of Richmond should appreciate and feel proud of the service they are receiving and having so efficient and energetic a manager in charge of the plant that supplies them with light power.

DECREASE IN OIL RUNS

Another slight decrease in the weekly runs of the Cumberland Pipe Line Company is shown in the report for the week ending Nov. 15, received Thursday. The total runs for the week were 76,222.75 barrels, as compared with 76,970.05 barrels for the previous week, a falling off of 747.30 barrels. Big Sinking pool furnish nearly half of the total de-

livery, or 33,039.12 barrels. Well Creek, Lee county's newest pool, is credited with 3,479.38 barrels. Rose Creek, Estill county, shows a decided falling off, as it credited with only 1,771.19 barrels, while heretofore the runs from this district have usually been between 2,00 and 3,00 barrels.
